Product Classification Index

The following pages have been devoted exclusively to listings of the manufacturers of office furniture, machines and supplies, and to their advertisements. No effort has been spared to make this section as complete and error-free as possible. The listing of social stationery items has been purposely avoided to permit complete coverage of items used in the office. Advertisers' names are in bold-face type. Complete addresses of manufacturers are listed in the section beginning on page 5.

America's Standard of Business Seating

FINE-REST Aluminum Chairs meet the requirements of every business. They have eye-appeal that make them a cinch to sell . . . intrinsic merit that guarantees user satisfaction . . . price appeal that produces real profits. This great demand for FINE-REST Chairs poses a serious problem. In compliance with a government order, our use of aluminum will be restricted. Every effort will be made to equitably share our production with the hundreds of dealers who have contributed towards the rapid rise in popularity of FINE-REST Chairs. We earnestly seek the sympathetic understanding of the trade in the months that lie ahead.

IT'S NEW

Presenting

An outstanding automatic collating machine for office use—for industrial use

We'll soon be in production on this newly designed collating machine. Paper stock is automatically suction fed from eight pockets, collated sets are delivered overlapped for ease in handling. By a simple adjustment the four pockets on each side can be operated independently or simultaneously – in effect this provides two machines, each of which can collate sets of four. Normal stock can be handled at rates of 4000 sets of eight or 8000 sets of four per hour. Machines will be available after July 1, 1952—Watch for further announcements.

it's fast • it's accurate • it's easy to operate

DENSIFIED WOOD FURNITURE COMPONENTS

NOTE: With no success at all these little Men are trying hard to make an Impression on "DENSIWOOD"

"Providing the Durability of Steel to the Warmth and Beauty of Wood"

The tendency to mar, dent and splinter is an inherent characteristic of wood. Now a revolutionary new process, resulting in our patented densified (or hardened) wood furniture components called "DensiwooD" solves this problem.

Identify this feature by making sure that our trade-mark and patent number appears on the inside faces of all components thus manufactured. We will gladly furnish you with the names of the more progressive Manufacturers who are featuring "DensiwooD" center posts on their various lines of Wood Office Desks.

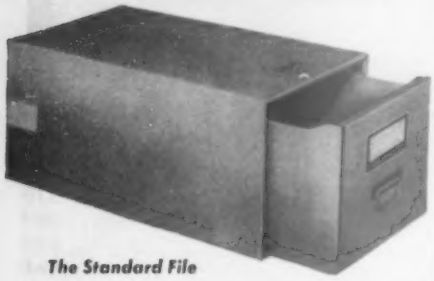
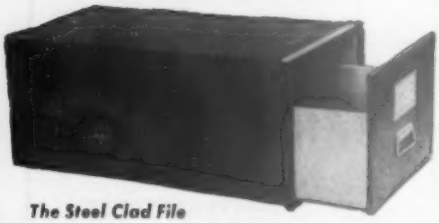
FIBERBOARD FILES



The Standard File

Oxford Standard Files provide a place for stored records that is both economical and convenient.

Made completely of high-test natural color corrugated board, these sturdy files are as easily-accessible as the active files that are in every-day use. They can be stacked six high without sagging. These are the files for services at lowest cost.



The Steel Clad File

Oxford Steel Clad Files have the color printed on the fiberboard, so that the green will not fade.

With Stak-klips and battery clamps, the files can be locked horizontally and vertically into solid batteries as high as the ceiling. Heavy gauge steel parts add to their strength and durability.

Rock-a-File MODULAR Office Furniture and Equipment

IN WOOD OR STEEL

Rock-a-File Modular Office Furniture and Equipment, the sensational result of sound engineering principles plus up-to-the-minute design, combines efficiency, comfort *and beauty* for all types of offices. With Rock-a-File Modular, the cold, unattractive office "look" resulting from an accumulation of pieces completely unrelated in design and appearance is a thing of the past.

Available in wood (shown above) or steel construction, each Rock-a-File Modular unit—desk, file, bookcase, waste receptacle, typewriter cabinet, drawer cabinet and shelf storage cabinet—connects to companion units in any desired arrangement. Modular file cabinet units incorporate all the basic features of the popular Rock-a-File side-opening file.

Whether in private or general office use, Rock-a-File Modular units provide complete flexibility of layout with maximum space economy *plus* vitally important comfort, efficiency and harmonious appearance. Steel units are available in gray or walnut finish; wood units available in genuine walnut only.

Rock-a-File

The Only MODERN File

Rock-a-File features compartments that "rock" open sideways, provides the same capacity as ordinary files in two-thirds the floor space. Compartments project only slightly when open. All contents instantly available . . . two or more persons can file simultaneously. Standard letter and legal size models available.

Rock-a-File Personal File

The perfect private-office file—ideal for home use, too. Features space-saving advantages of side-filing plus effortless operation of "rocking" compartments. Standard letter size, two-compartment model stands 32 inches high. Available in satin-gray or walnut finish.

ROCK-Elite

PLASTIC CARD GUIDES

Made of lightweight, transparent, long-lasting plastic. Guide and tab of one-piece construction, eliminating undesirable bulk that causes cards to "fan" forward. Full "angled visibility." Entire tab is transparent—no tiny "window" to limit label size. Guides can be bent double and spring back to original shape—will not become brittle or crack—will not "flash burn." Available in 3 x 5, 4 x 6, 5 x 8 and tabulating sizes, each in a wide label assortment for popular systems.

The name Ticonderoga *and the colorful figure of Ethan Allen (both of which appear on the illustrated dozen and half-gross boxes) identify Ticonderoga pencils!*

TICONDEROGA

The pencil your customers expect and demand from you...

Ticonderoga is first in advertising—first in promotion. Ticonderoga is constantly telling your customers through magazines and radio...

...*that Leadfast construction* means lead and wood unified so Ticonderogas take any writing pressure.

...that Ticonderoga Pencils are the *smoothest writing*—the most comfortable to use.

...that Ticonderoga Pencils have *quick-sweep* erasers that whisk the paper clean—instantly.

Sales-creating Ticonderoga dealer aids—window displays, streamers, blotters for your imprint...all yours for the asking.

Ticonderoga *is* the first name in pencils, and should be first in supply in your stock.

. . . BORG

This Better Parcel Post Scale Saves Time and Postage

Borg has streamlined the parcel post scale to minimum size and maximum efficiency. Only 8"x10", and 2" high (fits in a drawer). Weighs only 5 lbs. (pick it up with two fingers). You can take the scale to the work, thus avoid moving heavy packages. Gives exact* weight every time (to 50 lbs.)—no overstamping to be "sure." Fast dial speeds weighing, always returns to zero.

Shows both weight and postage in one "window"—no confusion. If bulky parcel covers dial, handy lock retains weight for later reading. Guaranteed for life under a Service Warranty. Handsomely finished in Office Gray. Ideal for both small offices (so compact) . . . and for large shippers (so quick and convenient).

Retails at $12.50 (Denver west, 50¢ higher). At your stationer—or write for name of nearest dealer. Borg-Erickson Corp., Chicago 11.

Dial shows both weight and postage at a glance.
(Above, about ¾ actual size)

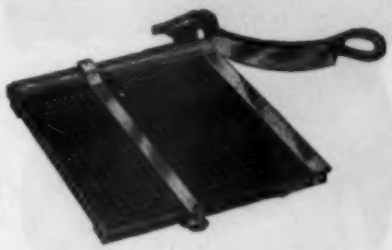
MILTON BRADLEY ALL PURPOSE CUTTERS

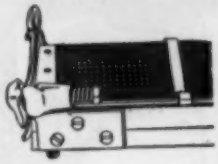


The most profitable cutter you can handle is the one that gives your customers the best service for the longest time. Because repeat business in cutters is just naturally slow. Pros may buy oftener, but amateurs usually buy one in a life-time. This means the most profitable part of *any* cutter sale is the good will it builds to bring people back to you for their other needs.

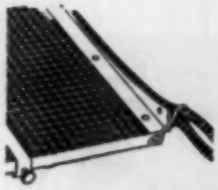
So take a tip from other smart merchants. Stock — and *sell* Milton Bradley Cutters.

And they *are* easier to sell. *Everybody* knows Milton Bradley stands for quality merchandise.

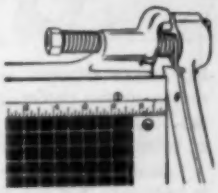
CHECK THESE SALES-BUILDING FEATURES



***Springs Made Special* for strength and durability. *Adjustable Guide* for faster, more accurate volume cutting is optional.**



***Sturdy, Accurate, Ruled Table* of hardwood with accurate, easy-to-see white lines scribed below the green board surface to last the life of the cutter.**



***Accurate Heading Rule* assures cutting to within the smallest fraction of an inch. (Larger cutters have special adjustments.)**

MB MILTON BRADLEY

A SIZE FOR EVERY NEED

Milton Bradley Cutters are available in seven sizes from 8" to 30" blade — $5.50 to $55.00 retail.

If you do not already stock Milton Bradley Cutters, get in touch with your distributor today — or write direct to us.

FOR 40 YEARS LEADER IN PAID CIRCULATION

The one journal which concentrates its advertising and editorial policies exclusively on articles for office use—stationery, machines, furniture.

Embodies the American Stationer, established 1873, the original trade journal serving the stationery field; Typewriter Trade Journal & Office Systems, 1904; The Office (original), 1904; Business Equipment Journal, 1908; Office Outfitter, 1908; National Stationer (original), 1909.

Leader in promotion of industry development and the sales of its products throughout the world.

**Of the fulfillment of program Thomas A. Edison wrote OFFICE APPLIANCES' editor in 1929 "through co-ordination of production and distribution of office machinery, office furniture, and . . . commercial stationery there has been evolved . . . one of the outstanding industrial entities of our country, the office equipment industry."*
